- CME credits: 16

Swiss Endoscopic & Microscopic Ear Surgery Course SEES/SMES

30 August - 31 August 2021, Venue: sitem-insel, Bern, Switzerland

siteminsel

Introduction

It is our pleasure to announce a hybrid endoscopic and microscopic ear surgery course. The program of this course includes live surgeries, whole head cadaveric dissection and podium presentations by Swiss and international faculty.

The Department of ENT, Head and Neck Surgery, Inselspital and the Institute of Anatomy of the University of Bern will jointly organize this course. We are proud to announce the participation of Prof. Livio Presutti from Bologna, Italy.

Format and Objectives

It is the aim of SEES/SMES to provide an excellent, realistic, and fruitful learning environment to all participants. Small groups of two participants will be introduced to the different techniques by personal instructors. The course strongly relies on hands-on demonstrations using whole-head cadaveric specimens. Lectures and live demonstrations will cover the theoretical background of the subjects taught.

The official language of the course is English.

The following topics will be covered

- Anatomy
- Powered instruments
- Endoscopic access to the middle ear
- Tympano-ossiculoplasty
- Stapes surgery
- Mastoidectomy
- Cochlear implantation
- Access to the lateral skull base
